

Once Upon a Time – Jennifer Mlott

Review – Love Battalion

Brecon Indie Review Team

Starts out of the gate upbeat and pumping with great bass lines and rocking drums moving the song to the great slide guitar while Jennifer brings the song to life with amazing lyrical imagery that plays a video in your head.

Great tune, love the strings in the background before the solo where Jennifer sings along with the guitar building the intensity to the end.

Once Upon a Time is an amazing tune, telling some stories of love, sparkling skies turning to grey and everything turning upside down. Crying so many tears that you might drown. Takes a serious heartbreak and turns it into a positive song that is an earworm for the masses.

If you have not listened to Jennifer Mlott, you need to! She has it all wrapped up into one amazing product and you will not be disappointed.
