Straight out of the gate, the song grabs you and drags you on a wild ride back into the 80's. "Brand New Day," is full of the nostalgia from the greatest 80's songs. I love the energy and the sweet swirling stereo effects added to a tune full of hooks.

Hard to believe this is coming from a duo, but it is the dynamic duo from Georgia, The Cranberry Merchants. Dianne's voice has the angst that grips you, but sometimes gets lost in the effects swirling around from Steve's guitar.

Love the song and changes throughout the. 3:38 ride; so much coming from these two cranking out the power.

I can hear the Simple Minds and other classic influences throughout but, with that true Cranberry Merchants touch.

Check out what makes them the GOLD ISSA Award winners.
