

Vanilla Base – Lost Traveller

Review By : Maggio Rivers of Ryvertone

Brecon Indie Review Team

The first thing that attracted me to this song was the beautiful, calm and dreamy piano melody. It really reminded me of a starry night, for some reason.

A great, warm vocal reaches straight to the heart and the amazingly written words add to the magical atmosphere, this song brings to us.

Being a fan of piano and vocal compositions, this song really grew close to my heart.

The beautiful piano arrangement definitely made this happen.
