

"Follow You" Phoenix and the SilverVoodoos

Sounding at times like Siouxsie and the Banshees, 999, and The Stiff Little Fingers, Phoenix and the SilverVoodoos serve up a grinding little rocker here.

Fuzzy guitars, pounding bass and drums drive "Follow You" along.

A tasty, frantic guitar solo puts the cherry on the top of this one. Follow You?

Yes!

Phoenix and the SilverVoodoos fans of late 70's style punk and post punk really should!
