

## **Symphony Of Broken Hearts-Wild Horse**

**Reviewed by Leigh Thomas**

### **Brecon Indie Review Team**

With a song that once again demonstrates their willingness to push boundaries and explore possibilities, Wild Horse deliver 'Symphony Of Broken Hearts', a raw and heartfelt cry in the sky.

From the beginning, one is instantly engaged by the melody and honest, yearning vocal as it overlays a wonderfully spacious rhythmic engine accompanied by delicate yet assertive piano.

The song balances this underlying simplicity with ambitious complexities which illustrate the band's willingness to utilize a range of genre influences and rummage through their vast musical toolbox, to both express and create a twisting and turning path for the listener to journey down.

An imaginative descent is abruptly upheaved into a symphony of vocals whereby the song explodes into its climactic chorus.

The song shifts dynamically but all the while is governed by the vocal track, sometimes intense, sometimes a subdued falsetto cry, but undoubtedly set free to wander its melodic and emotional possibilities.

'Symphony Of Broken Hearts' is not only a testimony and example of the musical capabilities of Wild Horse, but also of their huge potential and brilliant future.
