

Wild Horse – *When The Pool Is Occupied*

Wild Horse, as the name suggests, are a law unto themselves. Their awesome new album *When The Pool Is Occupied* is unique.

Along with plenty of new material, it includes epic singles like, "*Symphony of Broken Hearts*" a soundtrack-worthy ballad of loss and longing.

Jack's raspy, yet pitch perfect and powerful vocals, alongside crisp bass and piano cement a new Indie signature into the track. With incredible dynamics, the drop to a soft outro rounds off the track perfectly.

In contrast, the new offering, "*Confidence*" drops a slow, groovy funk you'd just have to strut to if it came on as you entered a bar.

"*Just About Enough*" is an angst-ridden tale in which the visceral pain builds into cathartic expression with which anybody could identify.

You wouldn't expect a track called, "*Anxiety*" to sound like an upbeat floor-filler but that's exactly what it is. Wild Horse have achieved exactly what is wanted from an album- massive variety while each track holds the Wild Horse signature sound.

Wild Horse are going places!
