

Jennifer Mlott Interview

Firestorm

Mary Wood, Founder : Brecon Indie Review Team

With her music Jennifer Mlott wants to inspire people with her lyrics and heal through her thoughts and stories.

"To be able to heal and understand your feelings through a song is one of the greatest gifts."

Firestorm is a song Jennifer Mlott holds in heart. The song theme is one that recognises the devastating effects of bullying and encourages victims to become their own, "Firestorm," against bullying.

Bullying

Jenn experienced bullying and is aware of the long-lasting effects and the difficult struggle to pull through. A very young Jennifer experienced bullying that made her feel that she didn't belong, that she wasn't good enough, bullies made fun of her and also being told she wasn't good enough by someone important in her life.

Become your own Firestorm

Jennifer knows how this can traumatise victims and encourages them to use those hurtful words as,

"Fuel to their fire and become a firestorm!"

She adds,

"Never let anyone tell you you're not good enough or that you don't belong."

She hopes *Firestorm*, "*shall help others who experience or have experienced bullying, to never give up, get up 1,000 times- crawling through glass and developing thicker skin.*"

Hope and Strength

She hopes this song provides hope and strength to come out of darkness towards the light.

Jennifer believes everyone on earth has a purpose and hopes her song, *Firestorm*, helps them in finding theirs.

She pumps out tunes!

According to Jenn, she owes much of her ability to release a lot of quality music to her producer,

Ben Travis, who owns and runs "Two Cats Music" Recording Studio. He helps her bring each aspect of a song together in a timely manner . "I have really tried to put my music out in certain time frames to avoid overwhelming my audience." Jenn also reaches out to fans for feedback!

"Creating a timeline throughout the years has been very beneficial . When I am in the recording studio I typically do more than one song in a recording session. I have done 1,2 or even 3 songs when I am in the studio. I try my best to be prepared and have a strong vision before I enter the building!"

Music has shaped her person

"Music has shaped me as a person."

We all have songs that are very special to us because they remind us of great times in our lives. It seems like we will never forget those songs and they only give us more enjoyment the longer time passes.

"It's exciting to me to think that my songs could give those great feelings to others in the future!"

I guarantee her songs shall be entertaining and inspiring for a very long time!

Jenn dances into music

Dance is a huge part of her life and a dream realised was becoming a dance instructor and choreographer.

"When I found my love for music, I went full throttle and made my music my full-time job."

She still finds time to choreograph dances and sub for dance teachers. One of her, "Full circle moments," she describes as becoming a judge for a national dance competition! She shall be judging multiple competitions this year and always look forward to it. The dancer gone choreographer gone teacher now judge, wow!

Cool background and hobbies

Jennifer somehow finds time to enjoy some other hobbies and has a really cool background in them! She choreographs dance routines, judges dance competitions, hangs out with family and friends or can be found book shopping!

Jennifer Mlott is a bookworm, who has a small library in her home! She loves to read different points of view and loves to put herself in the shoes of characters.

"It gives me a lot of inspiration and teaches me a lot of life lessons too."

She absolutely loves her many pets.

"They are definitely a part of the family so being with them and taking care of them means a lot to me!"

A couple of heartfelt memories

Jenn could write a great book on her experiences in music. Some of her favorite include opening up for, "America's Got Talent," star Jason Pritchett.

"He was so kind and made my experience so magical! Opening up for him really gave me a lot of inspiration."

Another favorite performance was performing at the Indiana State Fair. A palpable description she provided.

"It's In the middle of summer, there's fair food, awesome happy people and I've met some really sweet people!"

She describes performing there once and a young girl from a large family in the audience came up to her and told Jenn she wanted to be just like her when she grew up and that she wanted to be a singer too.

"I almost teared up right then and there!"

"To think I made an impact on a little girl and inspired her to sing made me so happy! I have made so many memories performing there and I'm planning to perform there again!"

Jennifer Mlott 2022

Jenn has scheduled performances, including performing at Parties, events, fundraisers, wineries, cafes, bars, fairs and festivals!

"I am so excited because this year is going to be jam-packed"

Jennifer is also getting ready to put out another album, after which she shall keep writing and put out more singles.

"I'm so excited!"

I think 2022 is going to be a wonderful growth year for myself and my music career.

Jenn likes all sorts of music!

Growing up she danced to many different genres of music- jazz, musicals, rap, alternative music and more. This exposure helped guide her tastes for singing and she crosses genres well. Now get this:

"I really love that people might be surprised that I love EDM, it is amazing. EDM can be a wide range from House, Dubstep, Trance and more. I think there's a little bit of something for everyone!"

From Jennifer Mlott to her fans

"Every chance I get I want to say thank you to my fans for always believing in me and my music. You have given me the courage to pursue my dreams and follow my heart and I can't thank you enough. To pour your soul into your music can be scary and intimidating, but my friends and "Mlotters," have given me the strength to believe in myself and the stories I want to tell. Thank you guys from the bottom of my heart and I can't wait to share more with you this year in 2022!"
